

SKILLS AND TECH

- **Programming / Scripting:** Python, C++, Javascript, Shell scripting.
- **Systems / Tools:** Linux, Git, SSH, Tailscale, PostgreSQL, Raspberry Pi, NVIDIA Jetson Nano.
- **Concepts:** Machine learning, Federated learning, System design, Embedded systems, Cloud computing, Software Engineering Fundamentals, Cybersecurity, Data Engineering.

EXPERIENCE

- | | | |
|--|--|----------------------------|
| Lee Health | Virtual Health Intern | Jun 2026 — Present |
| <ul style="list-style-type: none">◦ Deploy and configure Caregility virtual care cameras for the Room of the Future initiative, coordinating handoff to construction and plant operations◦ Cable-manage completed patient rooms and program in-room TVs for virtual care◦ Troubleshoot telehealth carts and other virtual health equipment | | |
| FGCU EagleCyberNest Lab | Undergraduate Research Assistant | Aug 2025 — Present |
| <ul style="list-style-type: none">◦ Led experimental work for an edge-based federated learning study on patient physiological diagnostic monitoring, accepted to the Edge Intelligence Workshop at IEEE SEC 2026◦ Configured Raspberry Pi 5 and NVIDIA Jetson Nano edge nodes, including hardware setup, SSH access, and software environment◦ Benchmarked and tuned models, produced results tables, and co-wrote the paper◦ Developing a Mamba-3-based intrusion detection system for healthcare IoMT networks, continuing earlier work on ML-based ransomware detection◦ Contributed to research on an ML-based digital twin framework for post-disaster assessment | | |
| FGCU Housing | Resident Assistant | Aug 2024 — Jun 2026 |
| <ul style="list-style-type: none">◦ Fostered a welcoming and safe community as a leader in campus residence halls. | | |
| Plato's Closet | Sales Associate / Buyer / Keyholder | Sep 2022 — Aug 2024 |
| <ul style="list-style-type: none">◦ Assisted customers, managed inventory, and completed managerial duties supporting store operations. | | |

PROJECTS

- **Software Engineering Fundamentals - Digital Twin Platform:** Used PostgreSQL to import OpenStreetMap data, FastAPI to display road lines in a CesiumJS web viewer. Coordinated meetings and roles among team.
- **Personal Music Library Automation Project:** Developing Python scripts to manage FLAC music library and transfer MP3 files to Raspberry Pi 5 for Plex Server. Utilizing SSH, Tailscale, and Git.
- **Personal JSONResume:** Practicing JSON data management and CLI usage. Generating PDF and web views.
- **Personal Systems:** Building a high-performance personal desktop dual booting Windows and Linux. Configuring a Raspberry Pi 5 as a home server for small applications.
- **Embedded Systems Autonomous Robot Vehicle:** Wrote C++ methods for robot navigation functions. Analyzed logical failures post-testing to understand flaws.

EDUCATION

- | | |
|---|---------------------------|
| Florida Gulf Coast University | Aug 2023 — Present |
| Bachelor - Software Engineering, GPA: 3.1 | |
